

AGED COUPLE MURDERED

THEY HAD A LARGE SUM OF MONEY IN THE HOUSE.

This Tempted the Cupidity of the Murderers—A Grandson Escapes and Alerts the Neighborhood.

By Associated Press.

Knoxville, Tenn., Feb. 9.—News has been received that Henry Smoot, aged 61, and wife, aged 79, were murdered at their home in Union county, Tennessee, last night. The aged couple were wealthy, and it was known they kept a large amount of money concealed about the house.

A grandson, living with them had gone on an errand to the mill, and when he opened the door he saw two masked men on the outside armed with revolvers. He sprang back, but the men fired and Smoot fell dead. They fired a second time and Mrs. Smoot was killed. Then the burglars covered the young man with pistols and ordered him to find his grandfather's money.

The boy pulled the drawers out of the bureau and while the burglars were searching for the money he sprang out of the door and escaped to alarm the neighborhood.

After searching the house the burglars carried two fine horses and a carriage. It is said they secured only about \$200. No accurate description of the men is known on account of the masks they wore, but they were taller than the average of the country, and may be concealed somewhere around the city.

HE WOULD FURNISH THE MATCH. Senator Calvin S. Brown was speaking recently of a person accused of an act amounting almost to criminality.

"Why, a man who would be guilty of such a practice would meet," replied his auditor upon hearing of the charge.

"Well, I don't know about that," remarked the senator. "There's a wide difference between stealing and snatching the proceeds of a match that has been used of a high experience."

"You can possibly imagine," the senator said in the country took when a direct case to town. From it time the colored people were in and the crowd distributed until the arrival of the show there was not a moment but that was one of excitement.

"Grown-up people," the senator said, "are over the country. They were in the elaborate affairs as those of the present, but I certainly have never seen one in the movement which came up in the movement and gave the pleasure of those old time shows."

"The entire town were the great events of the season, and for boys at a time when a circus was coming, and watched the road as went out in the country to not as much to the elephant and the circus to the show."

"Upon one occasion we watched and waited for the approach of the show, but it was delayed. The morning sped away, the afternoon disappeared, and yet no circus. Finally night came, and the darkness deepened, and with it came the report that the show was near at hand."

"But what were we to do, for it was now so dark that we could not have told an elephant from the shadow of a hay wagon, and all our eyes would be gone if we could not see the animals pass along the road."

"At that time one of the boys discovered a quantity of lumber which some one had brought to build a house. 'I'll tell you what,' said he, 'let's build a fire with this lumber and while it's burning we can see the whole show pass, elephant and all.'"

"The boy to whom he made this remark hesitated, looked at the lumber and then turned down the road. Then he said: 'Oh, no, I wouldn't do that. I wouldn't burn up the timber; it wouldn't be right, you know. But say, he continued, hesitatingly, 'I've got a match here if you want to see the elephant.'"

"And that's the way of the world," remarked the senator in conclusion. "There are lots of men who want to see the elephant who would not themselves light the fire, but would furnish the match, and there are many who would not light the fire, but would share the proceeds of the theft."

ANOTHER ACCIDENT AT SEA. The German ship Adolph Wootman struck a Reef off Nifun. None lost.

By Associated Press. St. Louis, Mo., Feb. 9.—The steamship Adolph Wootman from Hamburg struck on the rocks off Nifun, Germany, and sank. The ship was recently chartered from the position by Emperor William, and on board the steamer when she went ashore.

All were saved. The steamer and the cargo, however, will prove a loss.

THE AGE OF ANIMALS. A butterfly lives only a few weeks, a crow may live more than a century, and some are said to live sometimes over three hundred years. An eminent naturalist tells of a falcon that was 102 years old. A white-headed eagle, caught in 1700, died in 1800, and the avary of the palace of Schonbrunn, Vienna, where it had been in captivity 118 years.

Again, parrots and ravens think nothing of tumbling about the world for a hundred years or more, and some of the sea-birds and water-fowl outlive several generations of human beings. To come down to some well-known birds, the ordinary cock lives from twenty to twenty-five years, and a pigeon lives for about ten. A nightingale may live ten years.

NEW BUTTONS REIGN. Large buttons and small ones, the fashionable and the costly, all are following the latest fashions. A delicate French walking costume, just imported, is trimmed almost exclusively with buttons. They are small and of exquisitely tinted mother-of-pearl. Ladies' coats in the new shade of rose tawny is the material used.

The skirt is rather odd, though it is designed with a simple simplicity. It hangs straight and full, while from the belt in front three cloth tabs are suspended. The middle one is the longest, and each is embellished with rows of small mother-of-pearl buttons. From the hem the cloth tabs are again brought back. They are arranged diagonally around the bottom of the skirt as a trimmings.

The waist is a Norfolk jacket with an elaborate collar. The jacket is laid in plaits and finished at the waist line by a belt of cloth. The sleeves are a drooping puff from the shoulder to the elbow. It comes to the arm from the elbow down and fastens over the wrist with six tiny buttons and buttonholes. The collar is much as the Russian, but differs very little from white-breasted curlew feathers. Its foundation is cloth covered with shaded moire antique, which holds in its creamy background tints of rose and pale green. At the neck is a tuft of lace arranged like a knot.

Ladies' Skirt has just been elected to congress in New York city by a handsome majority. It is not this the same Skirt, which has been figuring largely in the market, and providing necessities for the poor of the metropolitan area. And it is not a skirt, but a make for? And is there a skirt in the skirt?

In captivity and a thrush fifteen, but when free they live much longer. Of quadrupeds the elephant lives much longer than any of his kind, and birds live longer than any of their kind. As for the whale, it deposits itself in the sea for some 300 years, and no turtle is considered to have attained a ripe old age before it reaches ninety years.

TO DRESS THE HANDS. I wonder how it came about that some one discovered that our hands and fingers needed cultivating. Was it that in the older days aristocratic dames of whom portraits sang and for whose approval knight lords the hand had no need to consider the beauty of their hands—that they sat perpetually at their homes, like the Lady of Shalott, and wrote with white and silver fingers, which have the other told? Or was it that revolution and anarchy have helped to equalize the splendor handed some of the soil and the proprietors of old ages, and so detracted their condition?

It lies within the owner's power to improve the appearance of the hand if a little care and study are brought to bear. One should know that if the hand is brown, a severe and on slightly being wrinkled will make it appear doubly so. So also does the fashion of wearing a little finger ring. Rings on any but the third finger suggest the beggar, and give a romantic effect in spite of the elegance of the manure. In the choice of rings and their disposition on the hand much may be brought to bear. On a fat hand rings look well, and on a thin hand they look like a burden. They look strongest—at least the ladies do. It may be a difficult matter to persuade the fair ones that a hand with prominent joints is fast left absolutely free of rings, and that a hand with a hard and bony look.

SPORTING. SCHAEFER BEATS IVES. Chicago, Ill., Feb. 9.—Schaefer, tonight beat Ives. Score, Schaefer 690, Ives 405.

BABY KINGS. Jersey City, Feb. 9.—At a meeting of the New York baseball club President Van Cull, Treasurer Tolbert and Secretary Stockhouse were reported.

NEW ORLEANS RACES. By Associated Press. New Orleans, La., Feb. 9.—Weather clear, track fast. Three favorites won. The attendance was unusually large.

First race, five-eighths of a mile—Cap. Wagner won, Dunlap second, Margery Hilliard third. Time, 1:02 1/2.

Second race, one mile—Theban won, T. H. Hilder second, Bert Harte third. Time, 1:42 3/4.

Third race, three-fourths of a mile—Queen Bird won, Maxine Hume second, Marjorie third. Time, 1:16 1/2.

Fourth race, three-fourths of a mile—Wagner won, Beverly second, Ed Ross third. Time, 1:10.

AN AMATEUR FIGHT. Chicago, Ill., Feb. 9.—The athletic club of Chicago was shocked today by the discovery that a thirty-two round prize fight was fought last night in the barn of Capt. Gustavus, one of the leading citizens. Capt. Gustavus's son, William, and Clifford Jones, well known young men, were the principals. The fight was managed by an organization known as the North American Athletic club, composed of Chicago boys and boys of the place. A purse of \$25 was awarded to the victor.

WEATHER FORECAST. Washington, Feb. 9.—Forecast for eastern Texas, fair, colder in eastern portion, north winds.

WHAT TO AVOID. Red hands should avoid contact with leather, turquoises or even diamonds. Fine old silver rings, black pearls, opals, emeralds, corals or pearls, blood rubies are the most suitable ornaments if decorations be longed for. If formed finger rings should never be highly polished. It is a good mistake to do so. Almost shaped the fingers are as fine as the most suitable ornaments if decorations be longed for. If formed finger rings should never be highly polished. It is a good mistake to do so. Almost shaped the fingers are as fine as the most suitable ornaments if decorations be longed for.

When the wrist bone presents a prominent ungainly knob ruffles of lace are a delightful resource, and as is the flannel cuff. An overcast skirt is quite as unbecomingly as should be just as carefully concealed.

Bundles of Michlin, or knotty Irish point lace, should be perpetually at hand for almost any emergency is given to "anoblique." Arms that are over colored or obese should also be sparingly exhibited. Indeed, they appear thinner when veiled by a puff sleeve which prevents the full outline from demonstrating themselves too readily. The less and narrower arm also requires a full covering, a difference in the construction of the sleeve puff only being needed. An overcast skirt is quite as unbecomingly as should be just as carefully concealed.

HOGG DEMOCRATS

HAD A CONFERENCE ABOUT HARMONY AT ROCKDALE.

And Expressed it as Their Opinion that the Cleveland Vote Would be the Fairest Basis.

Special Dispatch.

Rockdale, Tex., Feb. 9.—A private, but open-door conference was held here yesterday by representative Hogg Democrats of Milam county, called by Hon. Montie J. Moore, representative of this senatorial district in the executive committee, of which Hon. Walter S. Baker is chairman.

The purpose of the meeting was to elicit opinions as to the desires of Milam county Democrats in reference to the propositions made by the Matlock committee.

Speeches were made by Hon. T. S. Henderson, H. H. Hines, J. E. Longmire, Col. N. H. Tracy, Judge E. Y. Terrell, Capt. L. L. Lee, O. F. McAnally and others.

The consensus of opinion seemed to be that every honorable effort should be made to secure harmony; that the committee could consistently cooperate with the Matlock committee in calling the primaries and one united state convention; that neither committee had any power to bind individual members of the party by endorsements of platforms or administrations, which prerogatives are vested solely in the people themselves; that in the opinion of those present the Cleveland vote would be the fairest basis of representation.

There were two or three who dissented from these views, but they were approved by a large majority of those present, and so far as the writer has been able to ascertain they fairly represent the sentiments of the Hogg Democracy of Milam county.

DEATHS. MAXINE DUCAMP. By Associated Press. Paris, Feb. 9.—M. Maxine Ducamp, member of the French academy, is dead. He was born in Paris February 20, 1822. Leaving college, he traveled extensively in the east. In 1851 he was one of the founders of the "Revue de Paris." He was author of a number of works on travel and history.

CONGRESSMAN BOUCK. By Associated Press. Washington, Feb. 9.—Representative George W. Boock of Ohio died suddenly in this city this evening.

NOTES. Marguerite Merimee is devoting all her time to play-making. She is, however, to assist her plans.

When Henry Irving returns to London he will revive "Faust," and during his run will make preparations for the production of his new play, "King Arthur."

The manuscript of Victor Hugo's modern society drama, which is to be produced at Orleans in Paris, and by John Drew in this country this season, has reached New York.

Halden Chambers, author of Capt. Corcoran, the actor, etc., has outlined his plan, and will not sell for America in February, as he intended. He remains in London in order to put the finishing touches on his new play which Berlioz has written and is to be produced later in the season.

"High Stakes" is a modern drama by T. R. Tullberg, the English romantic novelist, whose last appearance in this country was in "Old." He is now in England.

When Henry Irving returns to England he will revive the monument erected to the memory of Harry Sullivan in Glasgow cemetery, Dublin.

The first act of the opera, "The Scarlet Letter," of which Walter D'Amico has written the music and George Parsons Latimer the libretto, will be given at Music Hall, New York, this month without any advertisement.

"Utopia Limited," Gilbert & Sullivan's new opera, will be produced at the Broadway theater, New York, on Easter Monday, by a company to be sent over from England by P. O. Carter, with Crane at the Star theater, New York.

T. D. Fawcett is to return to W. H. Crane's company for the rest of the season. He will open in his old part, Lieut. Schuyler, in "The Scarlet Letter," with Crane at the Star theater, New York.

Willie Collier will this spring produce a new play by Edward E. Kadden, called "A Black Number."

"The Charleston," Robert Buchanan's new play, is a satire on the south.

Frank Schreyer, a pupil of Wagner, is the latest victim to attempt the European public.

A fine hotel is to be erected at New Orleans by Chicago capitalists. The house, which is to be called the "Palace," is expected to cost \$500,000.

THE LIPSCHITZ CASE. Special Dispatch. Waco, Tex., Feb. 9.—Radford, the man accused of the Lipschitz murder, was seen today and stoutly maintained his innocence.

Speaking of the key in his possession, which it is claimed, fits the door at the Lipschitz residence, Radford says he brought it from Fort Worth and that it opened the door of the room he occupied there. This, he says, he is prepared to prove by witnesses in that city.

Radford says he met William Thorsday of the week of the murder and that the night of the crime they remained

FOR LA GRIPPE SUFFERERS.

The Reformer Editor Tells of His Experience with This Dangerous Disease.

EDITOR J. H. LIVINGSTON.

Birmingham, Ala., Dec. 30, 1893.—In the spring of the year 1891 I was attacked with grippe. I was laid up from business for about two months, a portion of the time as sore as ever lived through that mysterious disease. From the effects of the attack I was really ill all summer, weak and tired and debilitated.

In the spring of the year 1892 I suffered another outbreak of the same disease, and lost much sleep, and had in two weeks I went back to my duties again with a settled conviction that I would be obliged to pass through another summer of misery. My health improved, but I was still ailing, and I was really ill all summer, weak and tired and debilitated.

It is not before the first bottle was used, conviction dawned upon me that here was the cure. If not of life, still of health, and within a month I was meeting and really better than before the grippe had made my wretched acquaintance.

And now when tired from brain work or business cares I take a wine glass of either compound on going to bed, and wake in the morning refreshed and fit to begin again the toils and cares of the day. I feel that I have found the cure.

My wife, who is not widely free from the grippe, is benefited by the compound, with my help, in restoring the contents of a half-dozen bottles of the compound a year, to the great benefit of her health and her household. It could be said that every compound is as grateful to the palate as good and wholesome wine, which it is more invigorating and tonic in its effects than any vintage of the fruit of the vine.

A DISASTER TO THE FLEET. By Associated Press. Rio de Janeiro, Feb. 9.—It is announced in this city that some disaster has befallen the fleet of torpedo boats which left Pernambuco for the south.

The disaster, which is not yet explained, seems to be of a serious nature, and all information on the subject is refused at the present moment. In spite of the rumor, the government officials, however, it is asserted that at least one of the torpedo boats has been badly damaged, and the whole fleet has put back to Pernambuco, the rumors which are not explained in the dispatches received.
